WO or three days ago this page contained an account of "Young Otto's" defeats. It was printed entirely without prejudice, and merely to let a little gas out of an inflated "Otto" is a fairly good threeround prelimnary fighter, who recently became famous through landing a wallop on the projecting lower maxillary of Mowatt, the "Fighting Car Conductor," of Chicago. Mowatt is said to be related to Ed Dunkhorst, the "Human Freight Car."

Young Otto really has a prench. But he has also one of the best press agents in the business. The press agent does some mighty work. Leave it to him, and Otto will be champion of all classes within a week.

This gentleman gave out much useless information about Young Otto. It might have been useful if it had been true. Among other things he said that Otto never heard the bell ring at the end of the first round, because he always landed a knockout within three

Again, Otto claims a decision over Bobby Flynn, who beat him all over the ring for five rounds, and then knocked him out. Otto says it's hard for him to get a match. Well, I'll be pleased to back Reilly, for instance, sgainst him for anything from \$250 to

While the trotting body was in session yesterday Mayor Johnson, the presiding officer, received a request from E. E. Smathers that the charges made by Murrayy Howe be investigated. He asks that the National Trotting Association give to him an opportunity to disprove the mendacious utterances.

A notice to C. K. G. Billings, sent by Major Johnson, of the communication received brought him to the Murray Hill Hotel in the evening. Billings asserted that he had no personal animus in the matter, and that he would do all in his power to have all the evidence submitted to the board of review.
